Transforming surfaces ...and beyond

From the initial metal working in repair processes, through to the final detailing and polishing, Norton provides the most powerful, precise, and user-friendly solutions to transform surfaces of car body repair. And when choice and value are required, we provide the widest portfolio of abrasives and system components along with expert knowledge drawn from more than 135 years of experience. Norton are a true full service, value partner. No matter the application, our passion is in delighting our customers, making them more productive, more profitable, every day. Transforming surfaces, reshaping the Automotive Aftermarket, together.

METAL WORKING

Norton offers products for cutting, grinding, surface preparation, reshaping, sanding, cleaning and rust and excess material removal from high strength steel and automotive materials in the collision repair sector.

PRODUCT HIGHLIGHT: BLAZE RAPID STRIP

Removes rust, scale, old paint and composites quickly and easily leaving the surface prepared ready for the next step.

See page 25.

MICROFINISHING

For a high gloss finish and mirror shine, Norton has many abrasives, compounds and accessories to choose from to make the polishing process fast and simple.

PRODUCT HIGHLIGHT: LIQUID ICE XTRA CUT

Achieve a polished finish most common clear coats using only Liquid Ice Xtra Cut, single step process for great results.

See page 90.

MANUAL SANDING

From aggressive removal of paint layers to fine sanding finishing. In panel repair and preparation, look no further than Multi-Air cut sheets with the original hole configuration from Norton, designed for maximum dust extraction.

PRODUCT HIGHLIGHT: MULTI-AIR PLUS (A975)

The best product for final sanding when used in conjunction with the Multi-Air sanding block.

See page 48.

MASKING

A number of tapes are available for masking applications which require high heat resistance, to more specialist jobs on edges and in apertures.

PRODUCT HIGHLIGHT: NORTON PREMIUM TAPE

Resists high temperatures, conforms to contours, and leaves no residue when removed.

See page 115.

MACHINE SANDING

Whether sanding bare metal, filler, primer, base coat, clear coat, plastics or composites, Norton makes life quicker and easier in the bodyshop. Film discs, foam backed discs, mesh abrasives and Cyclonic Multi-Air which offers innovation as the 'all in one' sanding system with the ultimate dust extraction on all surfaces.

PRODUCT HIGHLIGHT: MULTI-AIR CYCLONIC

Colour coded discs and rolls made using premium abrasive grain, laser cut technology, an anti-clog layer, and foam backing make Cylonic the new go-to system

See page 56.

NORTON PAINT SYSTEM

An effective solution for preparing, mixing and spraying paint. A faster, cleaner solution, the NPS saves on cleaning time and solvent usage and can be used without the hard cup, improving spraying visibility and providing a more comfortable experience.

See page 121.

FINISHING

Scratch and scuff removal during the final repair stages needs quality products that can be relied upon to achieve a high quality finish first time. Norton non-woven products, Rotolo Foam and waterproof sheets do just that.

PRODUCT HIGHLIGHT: NORTON PRO PLUS ROTOLO FOAM

Pre-cut sheets with premium abrasive and foam backing gives a superior finish on flat and uneven surfaces thanks to the foam that absorbs the contours.

See page 76.

PERSONAL PROTECTION EQUIPMENT

Norton offers a range of respiratory masks, gloves, glasses and overalls for protection in the bodyshop.

See page 127.

SAINT-GOBAIN

CYCLONIC
MULTI-AIR

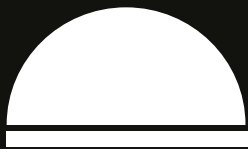

THE ULTIMATE SANDING SOLUTION

A truly unique 'all in one' sanding solution combining cleaner working conditions with the ultimate performance for a unique sanding solution for all applications.

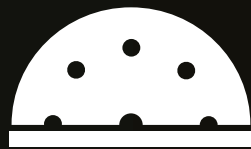

CYCLONIC MULTI-AIR

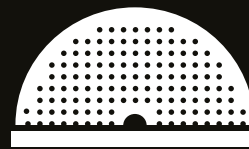

Thanks to the unique hole pattern based on cyclone formation, Norton Cyclonic improves productivity by up to 32% compared to conventional multi-hole sanding discs, with a 25% increase in dust extraction. Contributing to this increase is new laser cutting technology meaning holes are cut into the disc, not punched, so discs are flatter, dust extraction is better and the abrasive surface area is increased for a more consistent scratch pattern and improved surface finish throughout the life of the disc.

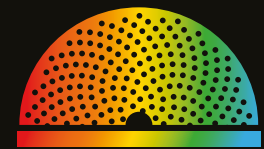

NO HOLE SANDING

VACUUM SANDING

MULTI-AIR SANDING

MULTI-AIR CYCLONIC SANDING

Ceramic grain combined with the No-Fil® formula provides a superior cut, greater productivity and longer life than conventional discs.

Thin foam backing of finishing discs gives a wider contact area as the foam adapts to surface curves and contours for a smooth, consistent finish.

PRODUCT SPOTLIGHT

FASTER

Minimise your sanding time with four easy sanding steps.

Optional application stages for heavy duty or final finishing operations when necessary.

SIMPLE

Colour coded by application for quick and easy selection.

PERFECT SURFACE FINISH

Achieved using the latest Norton Cyclonic dust extraction system combined with a soft foam backing.

A SIMPLE APPLICATION PROCESS

	STEP	APPLICATION	SHAPE / BACKING	BACK-UP PAD	MACHINE / MANUAL	FINISHING GUIDE
	BLUE	Optional STRIPPING & LEVELLING (heavy duty)	 Self-Grip	Hard	 5mm Orbit	80 / 100
	GREEN	1 STRIPPING & FILLER LEVELLING	 Self-Grip	Hard / Medium	 5mm Orbit	120 / 150
	RED	2 FILLER FINISHING	 Self-Grip	Medium	 5mm Orbit	220 / 240
	SALMON	3 PRIMER SANDING	 Micro Soft-Touch	Medium	 2,5mm Orbit	320 / 400
	FUCHSIA	4 PRIMER FINISHING	 Micro Soft-Touch	Medium / Soft	 2,5mm Orbit	500 / 600
	TURQUOISE	Optional FADEOUT & BLENDING	 Micro Soft-Touch	Soft	 2,5mm Orbit	800 / 1000

SEE PAGE 52 FOR THE FULL NORTON CYCLONIC RANGE

POWERFUL DUST EXTRACTION

Sanding is traditionally dusty and messy. But, with Norton MeshPower™, you get powerful dust extraction for virtually dust free sanding. This means a cleaner, healthier working environment, a better finish and a much more pleasant sanding experience.

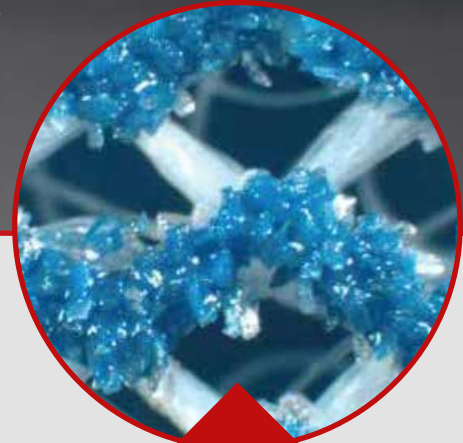

An alternative to traditional perforated paper discs, Norton MeshPower is a multi-functional abrasive, designed with thousands of holes, created by the unique mesh matrix structure. This hole structure allows dust extraction in any application.

CERAMIC ADVANTAGE

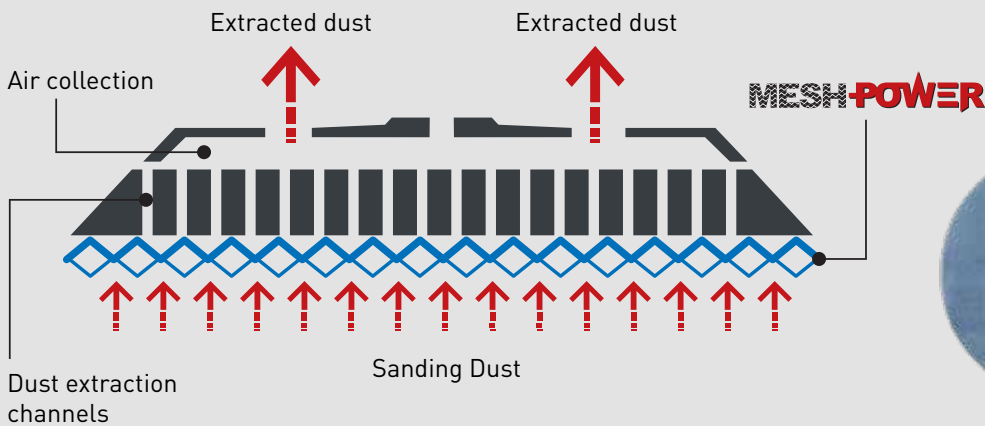

WHY CHOOSE A CERAMIC ABRASIVE?

Ceramic grain provides the ultimate material removal, best productivity, longest life and finest finish.

POWERFUL DUST EXTRACTION MEANS A CLEANER ENVIRONMENT

The open mesh construction of the backing allows dust particles to flow freely through thousands of tiny holes, creating a virtually dust free sanding environment. Better for your health, better for your application and better for your business!

LATEST PRODUCTS

Farécla

FARÉCLA G3 PRO

G3 Professional formulas have been engineered at a molecular level by our experienced technical team and scientists to make them user friendly, effective and suitable for use on multiple surfaces. Technically advanced formulas developed where relevant alongside paint and lacquer manufacturers make them safe and effective for all paint types and surfaces in many sectors including automotive, marine, aerospace and wood.

CREATE YOUR MASTERPIECE

NEW BODYSHOP MACHINES

Introducing two new machines to make sanding in the bodyshop faster, more comfortable and easier for operators.

The **Dual Action Sander Pneumatic (D.A.S.P)** is compact, lightweight and designed to reduce vibration and hand/arm fatigue when used over long periods, for better sanding control.

It includes a 360° adjustable muffler-cap to reduce sharp noise and a metal-muffler inside to reduce oil accumulation designed to ensure smooth running and extend machine life.

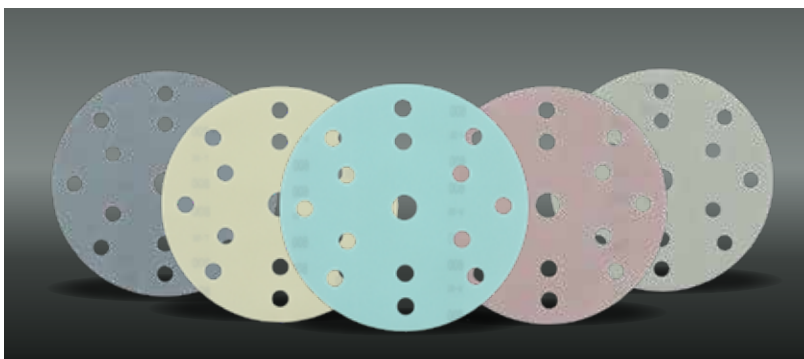

Achieve great sanding results when used with Norton Multi-Air or Norton Cyclonic discs. For more information, see page 72.

The new **Central Vacuum System (model CV4E)** is a powerful, effective vacuum with an automatic filter cleaning system ideal for moderate dust levels in bodyshops and workshops to maintain high suction performance. The Vacuum is a compact mobile unit which is easy to store and has a range of optional accessories to allow connection to pneumatic sanding machines.

NORTON Q775 FILM DISCS

New to the micro-finishing family, Norton SuperFlexible Q775 Film discs are durable and very flexible conforming better than ever to surface contours.

Discs are colour coded and available in grits up to P3000 for a consistent scratch pattern and even finish.

WE'RE MAKING IT EVEN EASIER TO ORDER OUR GREAT PRODUCTS

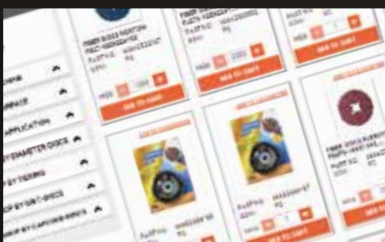

MyAbrasives

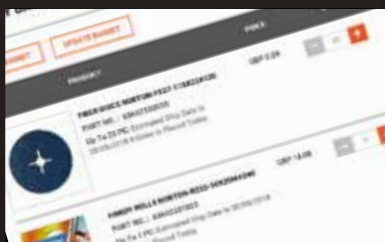

The online ordering system from Saint-Gobain Abrasives

Our user-friendly ordering system works very much like online retailers you use every day, easy to navigate and get what you need, whether it's ordering, tracking or research.

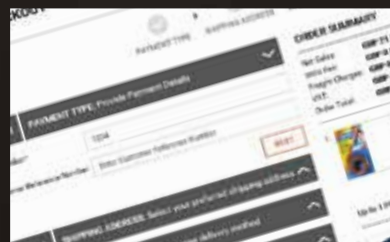

With MyAbrasives the ordering process is so simple:

Search for your product

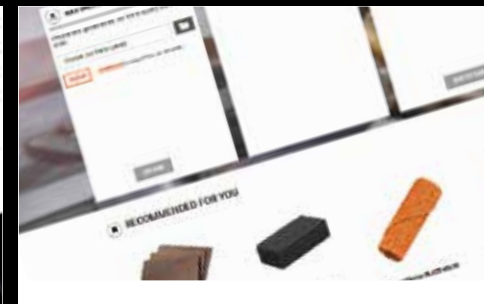

Add to basket

Go to checkout

ORDERING MADE EASY:

1. Detailed product information and specifications, including images and videos
2. Access to order confirmations, product availability and delivery lead times
3. Available from smartphones, tablets and PCs 24/7
4. Automatically creates a list of most frequently ordered products for ease of future ordering
5. Save favourite lists to make ordering quicker and easier

MYABRASIVES OFFERS GREATER FLEXIBILITY:

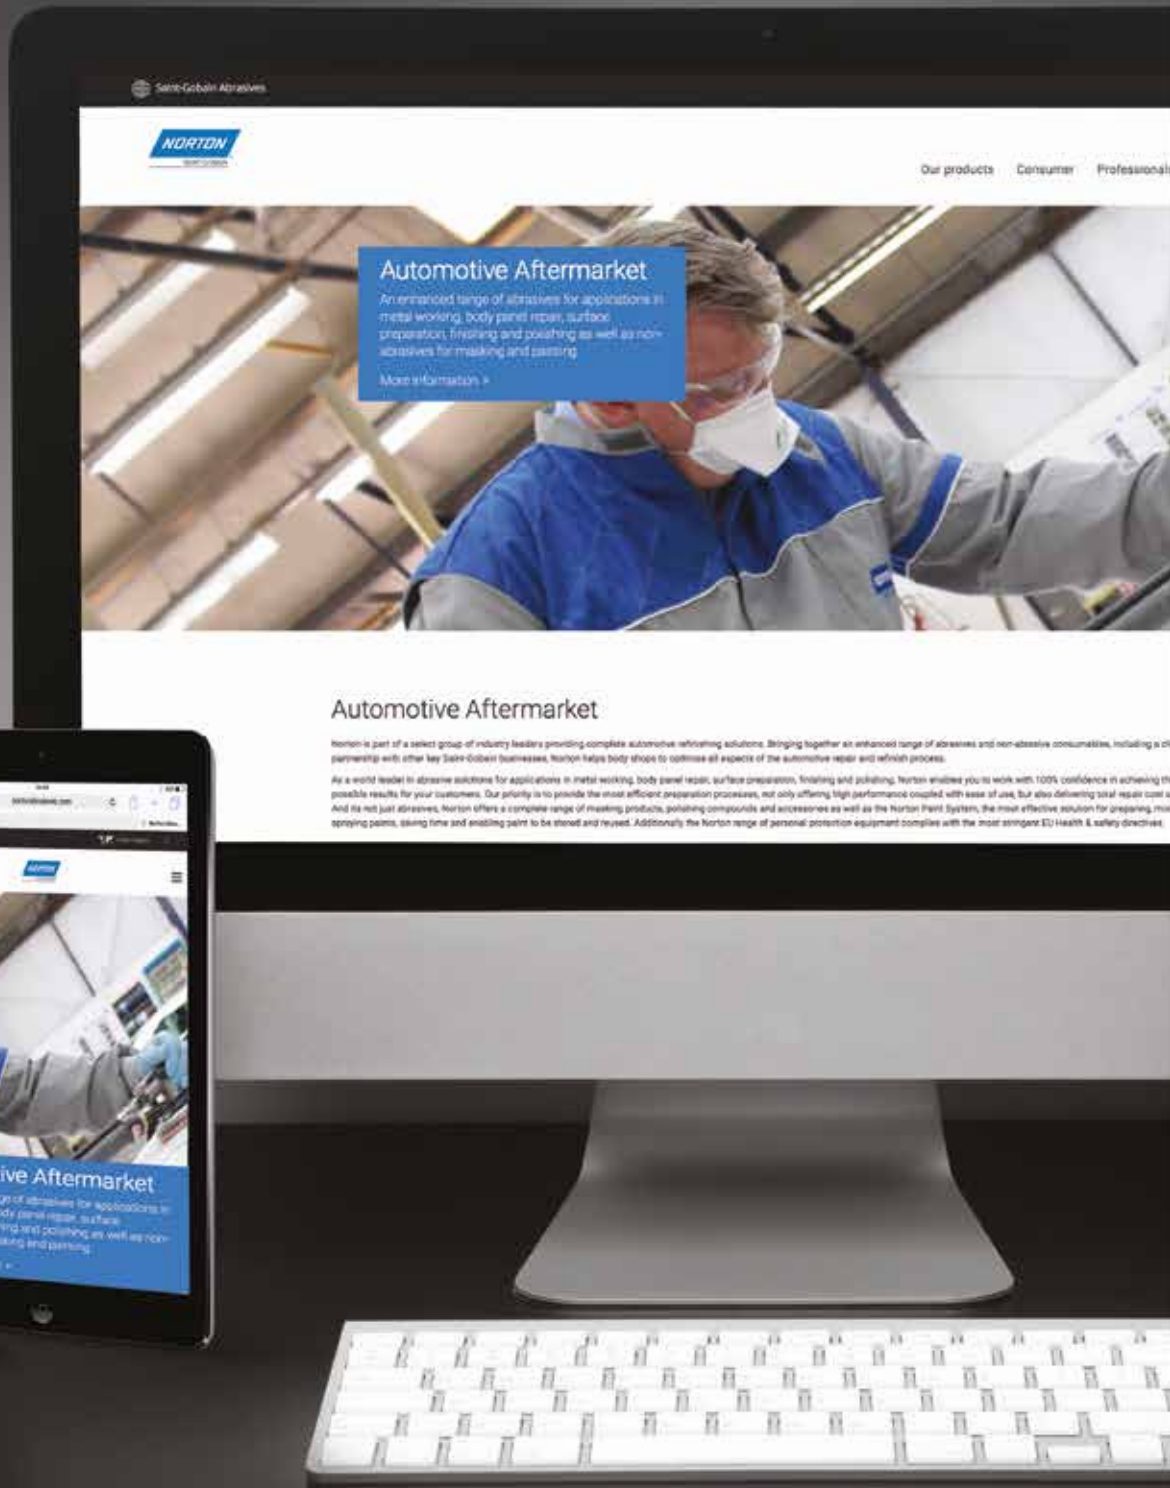

- **Product search:** you can search by UPC, name, category, EAN number and filter and sort search results, making it much easier for you to find what you need
- **Order history and reordering:** you'll be able to see your past orders across all platforms (EDI, ABx, phone and fax) and these can also be easily re-ordered. Invoices, debit/credit notes and shipping status will also be visible in the 'Order History' section so you can be sure all of your paperwork is safe in one place
- **Quotes:** you can request and track quotes in MyAbrasives rather than having to contact the customer services team separately
- **Saved orders:** you can save orders for future reference by putting multiple items in your cart and saving it, e.g. as 'Monthly Order'. You can also add a note to indicate the order frequency, e.g. 'order every month except December' and save it so you can re-order quickly and easily
- **Bulk orders:** if you need to make a bulk order, you can upload a CSV file directly into the system rather than having to search for each product individually
- **Recommended for you:** related products you may need to order
- **Extra support:** FAQs and how-to videos, or contact our dedicated helpline

SAINT-GOBAIN

EXCELLENCE TRAINING CENTRES

It is our goal to establish a long-term relationship with our customers, with a strong emphasis on sharing our professional skills, process knowledge and providing up-to-date information regarding industry developments.

Our Excellence Training Centres in France, Italy, Germany and Poland, are fully equipped facilities offering professional technical locations for hands-on training based on best practices in repair shops.

Our training sessions are held on a regular basis and are open to everyone! If you are interested in participating, please contact your local Norton representative to arrange a suitable date.

SAINT-GOBAIN

Advantage

THE NORTON ADVANTAGE:
WE CAN VISIT YOU ANY
TIME, ANY PLACE,
ANYWHERE.

Our mobile demonstration centre allows us to meet you anywhere, for a demonstration by our technicians. This provides the opportunity to “put to the test” our Norton AdvANTage program, demonstrating the benefits of Norton’s innovative products in your own working environment.

METAL WORKING

CUTTING & GRINDING

Designed for all rough applications including: weld removal, surface preparation, metal removal, reshaping and cutting rusted and corroded materials. Norton Blue Fire is the choice of the professional, cutting quickly and comfortably.

BLUE FIRE CUTTING DISCS

TYPE 41

- High performance abrasive grain yields up to 5% more cuts than standard discs
- Strong bond system in disc formula provides longer life, reduces workpiece burn and lowers the need for deburring
- Wide range of disc sizes available for cutting and grinding using a straight grinder or angle grinder in small or hard to reach areas

PANEL PREPARATION & WELD GRINDING

Weld grinding and stock removal is often required during major collision repair jobs. Norton offers a number of fibre discs and self grip discs for medium and heavy material removal from metal.

NORZON FIBRE DISCS F827

- Sharp NorZon grain provides fast cutting action and high stock removal of old paint and rust, smoothing down welding beads, light deburring and blending
- The 0.8mm fibre backing and full resin bond system makes the disc strong, flexible and long lasting
- The fibre discs are impregnated with active cooling agents, which prevent the workpiece from burning

NorZon

MOUNTING

Use with a backing pad on an angle grinder and use a tightening nut to ensure correct fixing to the machine.

NORTON METAL F100

- Tough, aluminium oxide grain and additional grinding additives make F1 ideal for steel and metal alloys
- The 0.8mm/0.6mm thick fibre backing provides good product life in metal removal applications

MOUNTING

Use with a backing pad on an angle grinder and use a tightening nut to ensure correct fixing to the machine.

DEBURRING & RUST/PAINT REMOVAL

To help reduce processing time and lower costs, Norton flap discs are engineered for applications from light stock removal to blending, providing a high quality finish every time.

X-TREME R860 **+++++**

- 100% sharp Norzon grain for a faster cut from the very beginning
- Tough polyester backing for excellent product life and more material removal with one disc
- Ideal on medium to high pressure applications on carbon steel and hard metals

SIZE (mm)	GRIT	125 x 22mm	PK QTY

	80	78072726078	10
	120	78072726045	10

X-TREME

Using a supersized disc is not necessary on carbon steel as less heat is generated than on stainless steel. X-Treme R860 is the best choice for carbon steel.

MOUNTING

Fits directly on angle grinders which have a tightening nut.

VULCAN FLAP DISCS **++++**

- Self-sharpening zirconia grain provides aggressive stock removal when needed and with lighter pressure, deburrs, blends and removes old paint layers and corrosion, on the periphery or interior of doors and wheel arches
- Strong cotton cloth backing provides strength, flexibility and wear resistance
- Optimised flap configuration and increased abrasive density makes this range ideal for all low and medium pressure applications on all metal types
- MOUNTING. Fits directly on angle grinders which have a tightening nut.

MOUNTING

Fits directly on angle grinders which have a tightening nut.

VORTEX RAPID BLEND DISCS **++++**

- Combination of high performance grain and unitised construction means finishing time is reduced and part quality is increased
- Thick nylon web resists loading, shedding and provides long product life
- 2-in-1 action; can cut like an 8 grit flap disc and finish like a finishing disc
- The undersized backing plate means the disc can be used for longer before being replaced, reducing total abrasive cost

DIMS	CAP CODE	MAX RPM	GRADE	ART. NO.	PK QTY

CLEANING

Make light work of removing unwanted coatings and rust from metallic components with this range of products for stripping and cleaning.

This range of Rapid Strip discs have a strong open web structure that combines aggressive stock removal with a cool, conformable action that will not damage the workpiece.

BLAZE
RAPID STRIP

- Nylon fibre composition, impregnated with high performance ceramic abrasive grain provides flexibility, so the discs do not gouge the work surface, instead shaping to its contours.
- The open structure between the fibers prevents clogging and reduces heat build up for a great finish, first time
- Cut costs by replacing some processes, multiple applications can be carried out with only one disc
- Leaves the surface thoroughly cleaned to ensure excellent adhesion for the next stage of the process

BLAZE RAPID STRIP WHEELS

- For use on flexible shaft grinders, straight grinders and drills
- Ideal for corners and tight spaces
- Cut costs by replacing some processes, multiple applications can be carried out with only one disc
- Leaves the surface thoroughly cleaned to ensure excellent adhesion for the next stage of the process

QUICK CHANGE DISCS FOR SMALL AREAS

Known as 'Quick Change Discs' for their convenience and speed during disc changeover, these mini discs have a special fastening system which enables discs to be changed quickly so no time is wasted during the application process. Designed for blending, breaking edges and removing parting lines and machine marks the discs are small in diameter, ideal for hard to reach areas and mild contours as well as small, flat surfaces.

MACHINES

For use on pneumatic tools and pencil grinders.

MOUNTING

TR: Roll-on/roll-off system using a nylon threaded male button on a pad (TR) with spindle.

BLAZE X-TREME LIFE DISCS R980

MINI ANGLE GRINDER

- Model: Norton Mini Angle grinder 50mm (2")
- 22.000 MAX RPM (0,45 HP)
- Designed for use with the quick-change back-up pad, SpeedLok and mini flap discs
- Use with 38mm and 50mm quick change sanding discs and spindle mounted sanding specialties only. The accessories must have a rated speed greater than the speed marked on the tool

DESCRIPTION	ART NO.	EXHAUST DIRECTION	THROTTLE TYPE	AIR CONSUMPTION	COLLECT CHNK	WEIGHT OF TOOL
50mm (2") 22.000 MAX RPM (0,45 HP) mini angle grinder	66261177765	Rear	Level	85 l/min	6mm	0,742 kg

APPLICATION TIPS:

- Air tools require regular lubrication throughout the life of the tool. The air motor and bearing use compressed air to power the tool. As moisture in compressed air will rust the air motor, it must be lubricated daily. An inline oiling device is recommended.

- This is an **UNGUARDED** tool and should **NEVER** be used with cut-off discs or other bonded abrasive grinding wheels. Never use any product that has a MAX RPM rating less than the RPM marked on the tool.

MINI ANGLE GRINDER KIT

- Ideal for metal car body work, the kit contains an assortment of abrasive SpeedLok discs of the most popular grades for stripping, deburring and surface blending, and the Norton mini right angle grinder
- The Norton mini grinder inside the kit is compact, light weight and ideal for use on small or awkward areas.
- The SpeedLok quick change system means discs can be changed quickly, reducing down time and speeding up the job

MANUAL SANDING

PRE-CUT ROLLS

Norton Cyclonic pre-cut rolls are made using the latest technology to ensure that each stage of sanding provides the best finish for the next stage of the process, minimising sanding time, increasing productivity and providing the perfect surface finish prior to painting.

As part of the Norton Cyclonic Sanding System, these rolls provide the best solution for panel preparation, from filler levelling to primer sanding.

FOR MORE INFORMATION ABOUT CYCLONIC, SEE PAGE 06.

CYCLONIC MULTI-AIR PRE-CUT ROLLS **+++++**

- As part of Cyclonic sanding system the colour coded backing represents each application step for fast and easy product selection in panel preparation, from filler levelling to primer sanding, speeding up the process
- Self sharpening ceramic grain delivers superior cutting performance and longer life than other abrasive grains. Ceramic grains also cut cooler, and wear more evenly, providing consistent sanding results and a distinctly uniform scratch pattern
- The No-Fil® formula prevents premature clogging of the abrasive, extending sanding time
- The self-grip backing is available in two dimensions that fit all sanding blocks for a fast and easy process from start to finish

STEP	COLOUR	APPLICATION	72mm x 12m	115mm x 12m	PK QTY	BOX QTY

CUT SHEETS & SHEETS

Manufactured to the most exacting standards, Norton's range of sanding sheets are second to none. Each product within the portfolio is designed to deliver a high quality, consistent finish at every stage of your process. Whether you are dry sanding primer, deburring, or removing scratches, Norton has a sanding sheet for your application.

MULTI-AIR

Norton Multi-Air cut sheets are specially designed for dry sanding operations, to cut faster, run cooler, resist loading and last longer than conventional sandpaper.

MULTI-AIR WITH NORZON TECHNOLOGY H835 +++++

- Aggressive cutting performance for heavy applications including paint stripping and removal of body filler when sanding and flattening sharp edges, whilst imparting a consistent and uniform scratch pattern
- Heavy E weight paper backing adds resistance to help this range withstand tough removal of filler on bare metal

Grit	 70 x 125 mm	 70 x 198 mm	 70 x 420 mm	 115 x 230 mm	PK QTY	BOX QTY

MULTI-AIR PLUS A975 **+++++**

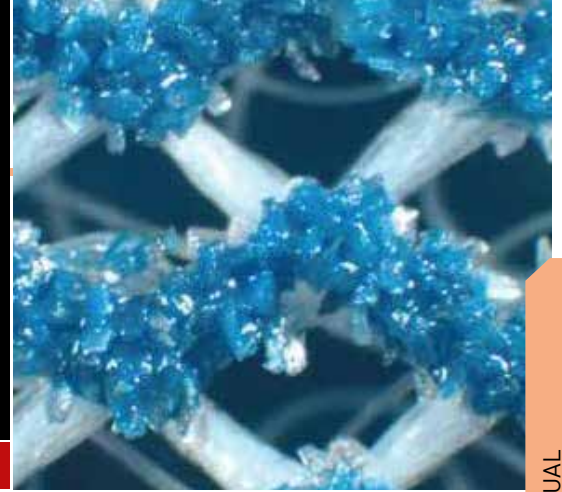

- The advanced No-Fil® coating both prevents build-up of dust and avoids premature clogging. In very fine grits, it can be used for final dry sanding before spraying, without the risk of developing runs
- Patented Norton ceramic grain is blended with premium heat-treated aluminium oxide to deliver a very high cut rate that lasts up to twice as long as conventional abrasives and imparts a consistent, uniform scratch pattern
- A unique fibre-reinforced latex paper backing adds to the flexibility and makes the cut sheets tear resistant in all the applications
- Specifically designed for paint sanding from levelling filler to finishing primer

MESH-POWER™

Experience powerful dust extraction with Norton MeshPower. A significant upgrade on traditional perforated discs, this solution is truly multi-functional. Designed with thousands of holes that are created by a unique mesh matrix, the MeshPower structure provides excellent dust extraction in any application. A reduction in clean up time is also a welcome benefit for any busy sander!

MANUAL SANDING

FOR MORE INFORMATION ON MESHPOWER SEE PAGE 08

MESH POWER CERAMIC M920

- Ceramic grain provides the highest performance thanks to its micro-fracturing properties which means the abrasive stays sharper and lasts longer than the aluminium oxide version
- No-Fil® technology is applied to the abrasive grain for longer product life and a consistent cut for the entire life of the product
- Abrasive can be used wet or dry for the perfect results
- No defined hole pattern, saves time and effort aligning holes, just apply, and go

SANDING BLOCKS, KITS & HOSES

Multi-Air sanding blocks are ergonomic, resistant and built for the best dust extraction. The special rubber grip provides good handling. All the Multi-Air blocks are provided with a regulating valve to regulate suction power and optimize air/dust flow.

MULTI-AIR SANDING BLOCKS

- The perfect partner for Norton abrasives for high dust extraction, including Norton Cyclonic, Multi-Air or MeshPower, for cut sheets or rolls, available in a range of sizes for any product dimension
- An in-built air chamber keeps sanding dust-free and the workplace clean
- Robust, impact resistant plastic body that has been built to last and stand up to the rigours of day-to-day use
- Comfortable rubber grip helps the user maintain control over the process

SANDING DISCS

Norton has a sanding disc for every automotive refinish application. From cost effective aluminium oxide and aggressive Norzon grain to the highest performance ceramic sheets and discs, including Norton Cyclonic, the ultimate solution for the whole repair process. With standard, self-gripping, perforated and mesh backed discs, paint stripping, smoothing body filler, flattening sharp edges and sanding door panels has never been easier.

CYCLONIC MULTI-AIR

Norton Cyclonic is the ultimate all-in-one sanding system for car repair, colour-coded by application for quick and easy product selection. The next generation in sanding technology. The range includes: discs, rolls, dispenser and accessories.

NORTON CYCLONIC SANDING SYSTEM. SEE PAGE 06 FOR MORE INFORMATION

CYCLONIC MULTI-AIR

CYCLONIC MULTI-AIR A975

- Made with super sharp ceramic A975 grain and No-Fil® technology for the ultimate cutting performance and a longer product life than conventional grain types. Ceramic grains also cut cooler, and wear more evenly for a consistent finish.
- For finishing applications, finer grade discs have a thin foam backing which adapts to surface contours for a smooth, consistent finish. Use with a Multi-Air back-up pad for the best performance
- Ultra precise laser cutting technology produces a flatter disc, increasing the abrasive surface area and optimising dust extraction
- Self-grip backing and easy to align hole configuration reduces downtime wasted between disc changes

MACHINE SANDING

MULTI-AIR

Made with premium abrasive grain, Multi-Air discs provide substantially longer life thanks to excellent dust extraction which reduces clogging, and faster cut than conventional abrasives. Available with a Soft-Touch backing.

NEW MULTI-AIR BLAZE A995

INNOVATION

- Ultra-premium ceramic aluminium oxide grain boosts performance with extremely sharp edges and removes over 30% more material with considerably less dust.
- An all-new exclusive backing design provides extraordinary strength with tear resistance well beyond any flexible paper in the market. This super-tough, polyester-reinforced hook & loop paper backing means exceptional edge adhesion of the grain even in the most demanding automotive sanding applications. The grain shed is virtually non-existent, and the result is outstanding durability.
- Unique Norton Multi-Air® hole configuration provides a consistent cut throughout the product's life and maximum dust extraction for a cleaner work environment and less potential for contamination in the shop.
- Norton No-Fil® water-based stearate coating ensures you get the superior finish you need without user fatigue, rework and endless consumption of discs through changeovers.

MACHINE SANDING

MULTI-AIR PLUS A975 **+++++**

- SG ceramic blended with heat treated aluminium oxide grains provides a high, fast cut rate on primer, paint, composites, marine gel coat and non-ferrous metals
- The blend of grain provides a consistent and uniform scratch pattern, maintaining the desired surface finish and excellent wear resistance
- In P80 - P120 discs, the backing is thicker for more aggressive use, P150 - P80 is thinner, for better flexibility in finer applications
- The unique hole configuration and No-Fil® coating resists loading to extend disc life by up to two times longer than conventional discs when sanding dry or wet. Disc colour will not transfer to the surface of the working area

CERAMIC ADVANTAGE

Ceramic grain provides the ultimate material removal, best productivity, longest life and finest finish.

MESHPOWER CERAMIC M920

- Ceramic grain provides the highest cutting performance thanks to its microfracturing properties, meaning the abrasive stays sharper and lasts longer than the aluminium oxide version
- For use on primer, filler, paint, lacquer, fibreglass, aluminium, gel coat and plastic in panel repair, spot repair and bumper repair on used or new panels
- No-Fil® technology is applied to the abrasive grain for longer product life and a consistent cut for the entire life of the disc
- Abrasive can be used wet or dry for the perfect result

For best performance, use with Multi-Air back-up pad, and for longer pad life, use with the pad saver

MESHPower ALUMINIUM OXIDE M220

- A good choice for sanding primer, filler, paint, lacquer, fibreglass, aluminium, gel coat and plastic in panel repair
- No-Fil® coating resists loading and provides consistent sanding for the entire life of the disc
- Ideal for wet or dry processes
- The self-gripping mesh backing not only provides unbeatable dust extraction, but saves time when changing over; just apply, and carry on

MULTI-AIR BACK-UP PADS

- The Multi-Air back-up pad draws dust into a collection chamber for optimal airflow and powerful dust extraction
- The innovative design delivers high performance and a smoother, unblemished work surface. This is alongside the additional benefit of a clean working environment.
- Multi-Air back-up pad 150mm is available in 3 densities (125mm in medium and soft).
- Packed in individual boxes with Festool and Rupes adapters, M8 and 5/16" bolts, 1 metal and 3 fibre ring spacers to fit all the most common sanders in the market

BLUE FIRE H835 **+++++**

- Sharp Norzon grains cut through old paint layers, body filler and smooth sharp edges with ease and the open coating helps to prevent clogging
- High strength E-weight paper backing is tear resistant and significantly reduces common issues such as curling and edge chipping
- A full resin bond system maintains grain adhesion, ensuring the grain stays intact for longer for maximum productivity for the life of the disc
- Self-grip backing facilitates quick and easy disc changing

NORTON PRO PLUS A975 **+++++**

- Using a combination of SG and premium heat-treated aluminium oxide grains, Norton Pro Plus provides excellent cutting with a uniform scratch pattern on primer, paint, composites, marine gel coat, non-ferrous metals and ceramic coatings
- Thanks to the combination of premium grain, Pro Plus has the most aggressive yet cool cut with excellent wear resistance, lasting up to twice as long as conventional discs
- In P80 - P120 discs, the backing is thicker for more aggressive use, P150 - P80 has a thinner paper backing for better flexibility in finer applications
- The No-Fit® coating resists loading to extend disc life when sanding dry or wet. Disc colour will not transfer to the surface of the working area

NEW DUAL ACTION SANDER PNEUMATIC DASP

- Compact, lightweight and ergonomic sander designed to reduce vibration and hand/arm fatigue when used over long periods, for better sanding control.
- Available in two rotational orbit sizes; 5mm for faster sanding and 2.5mm for an excellent finish.
- Includes a 360° adjustable muffler-cap to reduce sharp noise and a metal-muffler inside to reduce oil accumulation, designed to ensure smooth running and extend machine life.
- 12.000 rpm, adjustable speed, best sanding results were achieved when used with the Multi-Air back-up pad, that is included inside the box

ROTOLO FOAM

Rotolo Foam pre-cut sheets are ideal for fine sanding on round edges, contours and curves, providing a smooth finish on primers and top coats. The secret of Rotolo Foam lies in the combination of premium abrasive sanding paper and special foam backing. Rotolo is pre-cut to guarantee a straight edge when a piece is torn and prevents scratches from an unevenly torn edge.

NORTON PRO PLUS A975 **+++++**

- The best of the best Norton SG ceramic grain combined with heat-treated aluminium oxide gives an outstanding cut rate
- Fibre reinforced paper combined with flexible foam backing is ideal for use on round edges, contours and curves without breaking through the paint
- No-Fil® treatment prevents clogging, increasing performance and lifetime
- Units are packed in a handy dispenser box and have colour coded labels that show the grit size for quick product selection and easy storage

BEARTEX NON-WOVEN

BearTex is made from abrasive grain bonded to synthetic nylon to provide a pliable, long lasting solution for cleaning, finishing and blending applications on curved or flat surfaces.

The open mesh construction does not load with dust and shapes itself to contours for a uniform finish.

NON-WOVEN APPLICATION GUIDE

BearTex

- BearTex is made from silicon carbide and aluminium oxide grains bonded to synthetic resins to provide a cushioned, 3D material which is pliable, long lasting and provides an excellent finish without cutting through the undercoat/paint layer
- The open mesh construction is both flexible and waterproof, meaning that it will not load, shapes itself to the contours of any surface and is washable and reusable
- From cleaning to finishing, BearTex can be used in many body shop applications as it is available in pads, rolls, and discs in very fine to micro fine grades

COLOUR	GRADE	GRIT GENERATED	FEATURES	APPLICATIONS
RED	Very fine	P320/400	Quick and aggressive cut. Tear-resistant.	Cutting back surface inside a brand new part.
GREY	Ultra fine	P600/800	Quick cut, uniform finish. Incredibly flexible, yet tear-resistant.	Finishing a primer on sharp edges. Gentle cutting back before flush joint. Can be used with Scuff Gel.
GOLD	Micro fine	P1000	Ideal for pearls and metallics.	Cleaning of clear coat or lacquer. Can be used with Scuff Gel.
WHITE	Non-abrasive	-	Use on all surfaces.	For final cleaning.

ROTOLO BEARTEX PRE-CUT ROLLS **+++**

- Flexible, durable and perfect for use on contoured surfaces or hard to reach areas. Comes in a roll dispenser for easy storage and access to the product
- Available in silicon carbide (S) or aluminium oxide (A)

SCUFF GEL

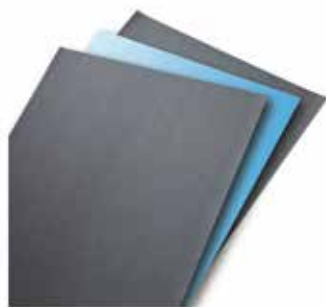

- Norton Scuff Gel is formulated to clean, degrease and abrade in one step
- Designed for use with grey and gold BearTex pads, using Scuff Gel gives better paint adhesion
- The water based formula with very low in V.O.C (Volatile Organic Compounds) rinses easily and leaves no mess.

APPLICATIONS	ART NO.	WEIGHT	PK QTY
Use with grey and gold BearTex pads	63642574653	700 grams	6 bottles

WATERPROOF SHEETS

When hand sanding in wet applications, waterproof sandpaper is the product of choice. Offering flexibility, cleaner sanding and a consistent finish, choose from silicon carbide or aluminium oxide abrasive.

BLACK
ice

BLACK ICE T417 **+++++**

- Premium silicon carbide grain delivers a fast initial cut and imparts a consistent finish across the surface
- The synthetic bond gives flexibility to the sandpaper, without cracking or curling, ideal when used on vehicle contours
- Use with a sanding block on flat surfaces or by hand, the extended grit range into higher grades is ideal for finer finishing applications
- Use wet for sanding polyurethane primer and cutting back an old surface before spraying, can also be used for cutting back flush joints

NORTON ICE RANGE

The Ice range is a complete solution of abrasive discs, compounds, polishing heads, cloths and accessories designed to provide the ultimate finish. Combine Liquid Ice polishing compounds with Pure Ice Q175 or Norton Ice discs to remove defects quicker, more effectively and thereby reduce polishing time.

MICRO FINISHING

PUREice

PURE ICE FILM DISCS Q175

- The ultra-thin film backing provides multiple benefits including excellent flexibility, allowing conformity to contours in the car body and it helps the discs to remain flat and prevent curling
- Patented resin technology promotes excellent grain adhesion that keeps the disc effective for longer and imparts a consistent finish that's easier to buff out
- Water based No-Fil® stearate coating resists loading, eliminates pigtails and further extends the life of the product
- Colour coded grits provide an at-a-glance identification of the correct product across all hole configurations including the dust reducing Multi-Air disc

DUAL SANDING BLOCK - RIGID/SOFT

- Double sided block with soft and rigid foam to support abrasive during sanding
- Norgrip Duo fixing allows the abrasive to be changed quickly and easily and prevents surface scratches

ART NO.	PK QTY
78072742355	4

ice

NORTON ICE DISCS Q255 **+++++**

- Polish in spot repair applications faster thanks to the uniform cut, smooth finish and lower scratch depth
- The open mesh foam backing moulds to the surface for even distribution of pressure for consistent finish
- The mesh foam is waterproof, making the disc washable and reusable, can also be used by hand
- Colour coded discs make grit identification possible at-a-glance

COLOUR	GRADE	DIA (mm)	ART NO.	PK QTY	BOX QTY

BLACK ICE ROSETTE DISCS **+++++**

- Self-adhesive waterproof rosette discs combine a light weight paper backing with ultra fine grain for fine sanding applications in a small area
- Use with a sanding block, or by hand, to eliminate small flaws in lacquer (stone chips, paint runs etc.) before polishing or buffing
- Use with a sanding block for best results and an even finish
- Use wet for sanding polyurethane primer and cutting back an old surface before spraying, can also be used for cutting back flush joints

MICRO FINISHING

LIQUID ice

When only the perfect finish is acceptable, use Liquid Ice polishing compounds and accessories. By reducing the number of polishing steps required, Liquid Ice XtraCut, Quickcut and OEM are a practical solution to improve productivity and quality of work.

Reduce polishing time and overall bodyshop costs with Liquid Ice which reduces the number of steps required to get that showroom shine. Compounds are 0% silicon and water based so are contamination-free for a more environmentally friendly solution.

A polished finish can be achieved on most common clear coats using only Liquid Ice Xtra Cut, single step process. Use the single step process for quick applications and good results. If holograms appear or if a higher gloss finish is required (on black, metallic or pearl coating), use Liquid Ice Quick Cut and OEM, dual step process. The dual step process gives accurate results and an exceptional finish.

NORWOOL LAMBSWOOL POLISHING HEADS

- Norwool polishing heads are made from lambswool natural fibres for cool cutting and immediate shine
- Available in small and large sizes for all polishing needs

DIAMETER	ART NO.	PK QTY
150 mm	63642567955	6
76 mm	63642567956	12

BACK-UP PAD

- Made from neoprene rubber for optimal pressure dissipation
- Chamfered edges allow the pads to adhere to the contours of bodywork and reduce the risk of edge-cut
- Specially designed for microfinishing

DIMENSIONS			PK QTY
76mm - 5/16"	63642567810		6
150mm - M14		63642567812	3

MICROFIBRE CLOTHS

- High quality micro-fibres are lint-free for streak-free cleaning and won't scratch paint, or clear coat, leaving a high gloss shine
- To eliminate any possibility of scratching the surface, each cloth is laser cut and the care sticker is removable
- Each cloth absorbs eight times its weight in water and dries in half the time of a standard towel
- Perfect for polishing applications, washing, cleaning and detailing cars, trucks, boats, motorcycles and delicate surfaces and can be washed and reused, saving money

COLOUR	DIMENSIONS (mm)	ART NO.	PK QTY
Red		66261108196	20
White	400 x 400	66261108197	20
Black		66261108200	20

BLUE MAGNET MICROFIBRE CLOTH

- Blue Magnet is the ultimate performance cleaning cloth for general purpose applications such as dusting, drying, polishing and waxing
- Absorbs eight times its weight in water, dries faster than chamois material and is ultra soft, reusable and machine washable
- Blue Magnet can be used dry or slightly damp to easily remove dirt, grease and dust from most surfaces including metal, paint, glass, plastic and leather

DIMENSIONS (mm)	ART NO.	PK QTY
400 x 400	63642504402	5

COTTON TACK RAG

- The 100% bleached cotton (15 threads per sq inch) is coated with an adhesive resin, which picks up and retains particles effectively
- Solvent and silicon free so won't cause surface contamination

DIMENSIONS (mm)	ART NO.	PK QTY
420 x 750	7660708050	20 x 10pcs

MICRO FINISHING

NON-WOVEN TACK RAG

- Polyester cloth impregnated with resin to absorb small particles and invisible dust between coats, preparing the surface prior to painting
- The non-woven construction gives strength and tear resistance

DIMENSIONS (mm)	ART NO.	PK QTY
320 x 400	7660708051	10 x 10pcs

CLAY FINISHING SOLUTIONS

- For best results, use with the Norton Detailer Spray to give flawless showroom finish
- Clay Disc - for finishing large surface areas by machine. With a soft foam backing, the disc is ideal for curved and contoured surfaces during fine surface preparation
- Clay Glove - ideal for manual finishing of difficult to reach areas such as edge of panels

FARÉCLA

Farécla compounds use Engineered Abrasive Technology developed by scientists in a state-of-the-art R&D facility. Only the highest quality raw materials are used to ensure the engineered particles quickly, efficiently and permanently remove defects, such as scratches, sanding marks, swirls, holograms and oxidation.

G360 SUPER FAST SYSTEM.

NOTE:
Correct machine speed, minimal product and applying no pressure are the keys to achieving optimum results. Clean the G Mop Super High Cut Pad regularly with a G Plus Spurring Brush

~~P3000~~

NOT REQUIRED

G3 PRO D.A. CUTTING COMPOUND

- For use with a Dual Action Polisher from P1500 grit
- Removes minor defects such as scratches, scuffs, swirl marks and holograms
- Restores oxidised and dull paintwork
- Highly lubricated – glides and cuts evenly over the surface with little effort

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7500	78072729773	12 bottles
1 L	7506	78072729809	6 bottles

G3 PRO D.A. FINE POLISH

- Enhances colour and gloss for a showroom finish
- Removes light defects such as swirl marks and holograms
- Especially designed for dual action application on dark colours
- Highly lubricated – glides and cuts evenly over the surface with little effort

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7501	78072729802	12 bottles

G3 PREMIUM ABRASIVE COMPOUND

- Leaves a swirl free, high gloss finish with reduced product consumption
- Removes P1500 or finer sanding marks from all modern paint systems
- Stage 1: CUT (900 - 1300rpm), Stage 2: FINISH (800 - 1100rpm)
- Easy & safe to use - minimal dragging, staining, hazing, dusting or splatter

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 g	G3P506	78072700172	12 bottles
1 kg	G3P101	78072700146	6 bottles

G3 ADVANCED LIQUID COMPOUND

- Versatile, can be used on both fresh and cured paintwork
- Removes P1500 abrasive paper marks without the use of fillers
- Improved cutting action speeds up the process
- Less water is required during use which reduces clean up time

SIZE	FARÉCLA CODE	ART NO.	PK QTY
1 L	AG3-1400	78072708715	6 bottles

G3 FINE FINISHING COMPOUND

- Quickly removes P3000 or finer sanding marks
- Swirls and holograms are eliminated permanently
- Restores lightly oxidised paintwork and dull surfaces
- Use by hand (G Plus Finishing Cloth) or by machine

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 g	G3F501	78072700143	12 bottles
1 kg	G3F101	78072700141	6 bottles

G3 GLAZE GLOSS ENHANCER

- Rapidly enhances gloss
- Excellent filling capabilities
- Restores colour and protects paint properties

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	G3G501	78072700145	12 bottles
1 L	G3G101	78072700144	6 bottles

G3 WAX PREMIUM LIQUID PROTECTION

- Provides a superior gloss finish on all types of fully cured paintwork
- Spreads easily providing a protective coating that won't dry out on the surface and buffs off quickly
- Use by machine or by hand
- Long lasting protection - up to 3 months

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	G3W501	78072700147	12 bottles
1 L	G3W106	78072708713	6 bottles

G3 REGULAR GRADE PASTE

- Reliable cut for P1500 or finer
- Permanent finish
- High gloss system, best results with water spray
- Silicone-free - 100% paintshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
250 g	G3-250	78072709133	24 tubes
400 g	G3-400	78072700140	12 tubes
3 kg	G3-3000	78072700139	4 tubs

G6 RAPID GRADE PASTE COMPOUND

- Permanent results fast - no fillers
- Excellent for air dried two pack paint systems
- Great for renovating OEM paint surfaces
- Ideal for harder paintwork - aggressive cut

SIZE	FARÉCLA CODE	ART NO.	PK QTY
400 g	G6-400	78072700173	12 tubes
3 kg	G6-3000	78072708711	4 tubs

G-SCUFF PAINT PREPARATION PASTE

- Gives an even matt finish for perfect blends and spot repairs
- Ensures perfect paint adhesion
- Contains detergents to remove wax, traffic film, tree sap

SIZE	FARÉCLA CODE	ART NO.	PK QTY
1 L	1161400	78072760429	12 bottles

G3 PRO SNOW FOAM

- pH neutral snow foam for maintenance cleaning
- Soaks and softens dirt to prevent surface scratching
- Will not remove existing wax layers
- Silicone free – bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7205-EX	78072764781	6 bottles

G3 PRO SHAMPOO

- Very concentrated formulation - highly dilutable
- Safe on all surfaces
- Does not remove existing wax layers
- Silicon free - bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7252-EX	78072764783	6 bottles

G3 PRO WHEEL CLEANER

- Powerful pH neutral touchless cleaner for all wheel types
- Fallout remover with colour changing technology
- The colour changing technology activates as brake dust and other iron rich contaminants dissolve. Safe for use on paintwork
- Silicone free – bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7209-EX	78072764782	6 bottles

G3 PRO TYRE SHINE GEL

- Provides an 'as new look' or a 'high shine' finish
- Eliminates the mess of sling, drips and streaks, prevents discolouration and premature cracking
- Safe on all tyre walls
- Contains no silicones or paint that can prevent the rubber breathing

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7213-EX	78072764790	6 bottles

G3 PRO RAPID DETAILER

- Use on bodywork, rubber, plastic and chrome
- Removes light dirt, dust and fingerprints and leaves a 'just-waxed', high gloss finish
- Does not strip previously applied waxes from the surface
- Quick clean

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7193 EX	78072764773	6 bottles

G3 PRO DEEP CLEAN CLAY MITT

- Easily removes ingrained dirt, bugs, tar spots and dulling pollutants from paintwork, windscreens and headlights
- Uses an advanced rubber polymer technology
- Lasts up to 5x longer than traditional clay bars

FARÉCLA CODE	ART NO.	PK QTY
7191	78072706632	12

G3 PRO MULTICLEANER

- All purpose cleaner (APC), safe on all surfaces - no staining
- Breaks down oil and grease, powerful on stubborn marks
- Will not discolour rubber, plastics, vinyl or fabric
- Silicone free – bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7199-EX	78072764774	6 bottles

G3 PRO ALL-IN-ONE POLISH

- All-in-one cutting polish, gloss enhancer and paint protector
- Easy one-step application
- Ideal for hand use or with a dual action polisher
- Silicone free – bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7251-EX	78072764796	6 bottles

G3 PRO COLOUR RESTORER

- Improves paintwork by removing swirls, holograms & fading
- Restores colour and shine to faded or oxidised bodywork panels
- Using high grade of light polishing abrasives
- Silicone free p bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7195-EX	78072764794	6 bottles

G3 PRO SCRATCH REMOVER LIQUID

- Eliminates light scratches or diminishes the look of deeper defects
- Easy to spread liquid – ideal for larger areas
- Easy application by hand or machine
- Silicone free – bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7164-EX	78072764793	6 bottles

G3 PRO SPRAY WAX

- Quick, easy and durable
- Enhances the surface gloss level and prolongs previously applied wax finish
- Does not stain rubber or plastic, contains UV inhibitors
- Silicon free - bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7211-EX	78072764789	6 bottles

G3 PRO RESIN SUPERWAX

- Long-life, high gloss finish
- Easy glide wax
- Interlinked system of Carnauba, Montanic and Paraffin waxes
- Up to 4 months protection

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7166-EX	78072764784	6 bottles

G3 PRO SUPERGLOSS PASTE WAX

- Super easy application
- Ultra high gloss finish
- Up to 6 months protection
- Includes Waffle Applicator Pad

SIZE	FARÉCLA CODE	ART NO.	PK QTY
200 g	7177	78072706631	4

G3 PRO SUPER DRESSING

- Removes dirt, dust, grime, chocolate and many other stubborn contaminants
- Leaves a non-slippery surface
- Dries quickly to leave a subtle, 'new look' sheen
- Silicone free for a natural factory look – and bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7201-EX	78072764786	6 bottles

G3 PRO LEATHER CLEANER

- Safe cleaner with non-slippery finish
- Foaming action which reaches deep into soiled areas and lifts dirt making it easy to wipe away
- Contains natural lanolin oils
- Silicone free – bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7200-EX	78072764797	6 bottles

G3 PRO GLASS CLEANER

- Quick and easy application
- Provides excellent clarity
- Smear and streak free finish, quick and easy application
- Silicone free – bodyshop safe

SIZE	FARÉCLA CODE	ART NO.	PK QTY
500 ml	7202-EX	78072764788	6 bottles

G PRO APPLICATOR WAFFLE PADS

- Two Waffle Pads - 1x Restore. 1x Finish
- Minimises wastage
- Easy to use

FARÉCLA CODE	ART NO.	PK QTY
7167	78072706635	2 pack x 6

G MOP SUPER HIGH CUT PAD

- Extremely rapid cut from P1500
- Recommended step 1 pad for use with G360 Compound
- Hybrid of foam and engineered fibres keep panels cool and significantly reduces drag improving ease of use
- Superb handling and flexibility, glides easily over surface contours

SIZE	FARÉCLA CODE	ART NO.	PK QTY
3" / 75mm	GMC350	78072708948	3 pack x 6
6" / 150mm	GMC650	78072700153	1 pack x 12

G MOP HIGH CUT FOAM

- High cut and rapid, superb gloss
- Open cell structure for 'dry use' compounds
- Highly Durable
- Excellent on aged paint and large areas

SIZE	FARÉCLA CODE	ART NO.	PK QTY
3" / 75mm	GMC309	78072700180	3 pack x 6
6" / 150mm	GMC628	78072756718	1 pack x 24

G MOP YELLOW COMPOUNDING FOAM

- Excellent cut and gloss
- Can be used with wet or dry use compounds
- GMC624 - Superb handling and flexibility, glides easily over surface contours

G MOP BOLT ADAPTOR

- For use with Farécla double sided pads
- Screw on and off design with M14 14mm thread

FARÉCLA CODE	ART NO.	PK QTY
GMA014	78072700181	1

G3 PRO MICROFIBRE CUTTING PAD

- Optional step to eliminate surface contaminants and heavy defects from hard OE paints

FARÉCLA CODE	ART NO.	PK QTY
7502	78072729804	24

G3 PRO FOAM CUTTING PAD

- Eliminates heavy defects from OE and refinish paints
- For use with G3 Pro D.A. Cutting Compound

FARÉCLA CODE	ART NO.	PK QTY
7503	78072729807	12

G3 PRO FOAM POLISHING PAD

- For use with G3 Pro D.A. Fine Polish
- Use after G3 Pro Cutting Compound step to eliminate holograms and enhance gloss
- Can also be used as a single step to restore colour and gloss to faded paintwork whilst removing swirl marks, holograms and other minor defects
- Best use when you apply dabs of compound to the pad instead of on the car body

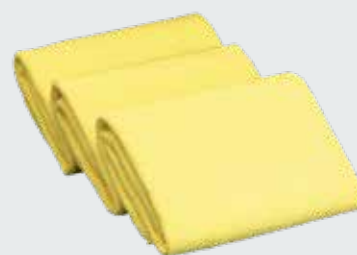

FARÉCLA CODE	ART NO.	PK QTY
7504	78072729808	12

G PLUS FINISHING CLOTHS

- Edgeless to avoid scratching
- Low-lint, 400mm x 400mm microfibre cloth
- Very high absorbency
- Can be machine washed up to 100 times

SIZE	FARÉCLA CODE	ART NO.	PK QTY
400 x 400mm	FC-3/12	78072700136	3 pack x 12

G PLUS SPRAY BOTTLE

- Gives an even dispersal
- Ensures a supply of clean water to minimise contamination
- Can be used with all sprayable liquids

SIZE	FARÉCLA CODE	ART NO.	PK QTY
600 ml	WSB	78072700142	25 bottles

G PLUS SPURRING BRUSH

- For quick and easy cleaning of pads when spun on a polishing machine
- Avoids residue, dried compound and other contaminants impairing your next job and prolongs pad life
- Unclogs foam cells to ensure no drop in cut or gloss

SIZE	FARÉCLA CODE	ART NO.	PK QTY
For all pads	1090005	78072700135	20

G PLUS DEGREASING WIPES

- Removes all debris before painting, without scratching the surface
- Non-snagging and low-linting
- Strong and highly absorbent
- Easily dispensable

SIZE	FARÉCLA CODE	ART NO.	PK QTY
580mm x 530mm	1050200	78072710927	1

G PLUS POLISHING WIPES

- Multi-purpose wipes
- For use without scratching the surface
- Highly absorbent and solvent resistant

SIZE	FARÉCLA CODE	ART NO.	PK QTY
580mm x 530mm	1050100	78072710926	1

LIGHTWEIGHT (2,2kg)	POWERFUL / HIGH TORQUE	SPEED RANGE 700 - 2500rpm
ROTARY	220 - 240V~ (50/60Hz)	VERSATILE, 5M POWER CORD

G PLUS ELECTRIC ROTARY POLISHING MACHINE

- Lightweight yet powerful
- Very wide speed range
- Low vibration
- Long power cord

SIZE	FARÉCLA CODE	ART NO.	PK QTY
150mm pad	GPT002	78072700159	1

AC DELCO MINI POLISHER

- Long battery life. Charger and spare battery supplied
- Supplied with spare carbon brushes
- Lithium-Ion batteries
- Ideal for polishing small areas

SIZE	FARÉCLA CODE	ART NO.	PK QTY
3" / 75mm pads	FG-MINIPOL-ADV	78072700137	1

G PLUS ELECTRIC DUAL ACTION POLISHER

- Lightweight at 2.6kg, reducing muscle fatigue when used for long periods of time
- The 15mm throw, balances the speed of paint correction with machine vibration
- Speed indicator, enabling increase or decrease of polishing speed for optimal results
- Precision engineered counterweight, that minimises vibration and the associated user fatigue

FARÉCLA CODE	ART NO.	PK QTY
GPT202	78072729810	1

G PLUS D.A. SYSTEM KIT

- Kit contains the G Plus D.A. Polisher, a very well-balanced machine, with low vibrations, for faster paint correction and polishing jobs
- Also includes G3 Pro D.A. Cutting Compound, to eliminate P1500 sanding marks, remove minor defects such as scratches, scuffs, swirl marks and holograms, restore oxidised and dull paintwork
- The G3 Pro D.A. Fine Polish is also included, to enhance colour and gloss for a showroom finish, to remove final light defects such as swirl marks and holograms, especially designed for final applications on dark colours
- 3 different pads, for each step of the polishing process

FARÉCLA CODE	ART NO.	PK QTY

MASKING

MASKING TAPES

Norton offers a range of masking tapes suitable for a number of bodyshop applications. All tapes readily conform to contours and adhere to most surfaces and irregular shapes. Our masking tapes are also resistant to a broad range of temperatures.

NEW ORANGE TAPE **+++++**

- Professional masking tape, excellent for curves, contours and irregular surfaces
- Excellent adhesion to all surface types (paints, plastic films etc.) thanks to the solvent-based rubber adhesive, good stretchability
- Resists baking temperatures up to 120°C for 30 minutes or 90°C for 1 hour
- UV protection withstands indoor and outdoor use for 3 days without leaving any residue on the surface

DIMENSIONS	ART NO.	PK QTY
18mm x 55m	78072709627	48
24mm x 55m	78072709628	36
36mm x 55m	78072709629	24
48mm x 55m	78072709630	20

GOLD TAPE **+++++**

- Gold tape is designed for fine line paint masking on many substrates
- Resists baking temperatures of up to 120°C for one hour without leaving residue on the surface
- Thin and resistant (rice) paper tape will not peel paint off when removed and provides excellent masking line sharpness

DIMENSIONS	ART NO.	PK QTY
19mm x 50m	66261067434	24
25mm x 50m	66254490982*	36
38mm x 50m	66261067435	12
50mm x 50m	66254490986	18

* Made-to-order

PREMIUM MASKING TAPE **++++**

- For demanding applications, contours and irregular surfaces, Norton premium tape does not bleed through, seep or leave residue when removed
- Excellent adhesion on all surface types thanks to the rubber solvent based adhesive resists baking temperatures of up to 100°C for 30 minutes
- Compatible with most common paints and lacquers used in the body shop

DIMENSIONS	ART NO.	PK QTY	BOX/PALLET
19mm x 50m	69957394601	48	48
25mm x 50m	69957394602	36	48

48mm x 50m	78072760601	24	24

CHALLENGER TAPE **+++**

- Excellent resistance to paint, solvents, lacquer thinners, Challenger Tape shows outstanding tape to tape adhesion
- Saturated semi-crepe paper based masking tape makes Challenger Tape particularly suited to oven baking painting operations up to 100°C and 30 minutes
- Optimised for most surfaces and well suited to both metallic and plastic alike

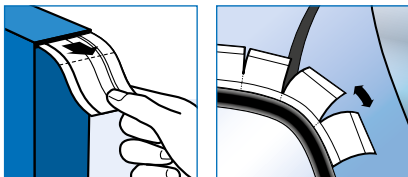

DIMENSIONS	ART NO.	PK QTY
18mm x 45m	66261133208	48
24mm x 45m	66261133211	36
36mm x 45m	66261133214	24
48mm x 45m	66261133216	18

MASKING

PREMIUM PERFORATED TRIM TAPE **+++++**

- For protecting rubber trims and body side mouldings during spraying
- The tape is pre-perforated for easy tear off and is flexible to follow contours and tight curves
- Only one size and thickness, plastic strip fits all types of rubber trim
- High quality adhesive with no residue upon removal

DIMENSIONS	ART NO.	PK QTY
50mm x 10m	66261194743	10

PREMIUM FOAM TAPE **+++++**

- With highly absorbent foam to avoid leaks or paint runs, this foam tape is one continuous length which fits all gaps without rolling and will not distort when torn
- Recessed adhesive reduces defects or rework after spraying
- Can be used on fixed or moving parts to ensure a smooth paint edge
- Use in all car door apertures before spraying

DIMENSIONS	ART NO.	PK QTY
20mm x 50m	66254470746	1

STANDARD FOAM TAPE **++++**

- Recessed adhesive causes no paint edge or rubbing down, provides reliable protection of painted edges quickly, and is easy to apply

DIMENSIONS	ART NO.	PK QTY
13mm x 50m	66254470735	1
19mm x 35m	66254470744	1

POLYETHYLENE TAPE - 357

- Excellent adhesion to all surfaces for edge protection and wrapping
- Water and heat resistant

DIMENSIONS	ART NO.	PK QTY
50mm x 50m	7660717720	24

GREEN FINE LINE TAPE

- Used for the demarcation of the most delicate paint work, Fine Line tape conforms easily to the tightest contours without wrinkling
- Vinyl backing does not leave adhesive residue when the tape is removed, even after baking at 150°C for 30 minutes
- 0.13mm thickness allows extremely precise demarcation of the area to be painted
- Elongation of 150% provides excellent flexibility

DIMENSIONS	ART NO.	PK QTY
3mm x 55m	66261121865	10

Spindle	M8 - 6 mm	7660718162	8

MASKING FILM

Norton Plastifilm provides the perfect solution for protecting car bodywork when spraying primer, paint or varnish. Available in three qualities: Standard, Premium and Ultra.

PLASTIFILM ULTRA **+++++**

- Made from a tough, water resistant, and tear resistant high density polyethylene+ that prevents sweating and leaves no marks when used on damp cars
- Impregnated with an anti-paint-flaking treatment for excellent paint absorption and no bleed through of water/solvent based products
- Heat resistant up to 110°C, making it safe to use in the spray booth
- The material is also fully recyclable

DIMENSIONS	ART NO.	PK QTY
4m x 150m	63642504273	1
5m x 120m	63642504393	1
6m x 100m	63642504396	1

PLASTIFILM PREMIUM **++++**

- High density polyethylene resistant to water and solvent based paint
- Heat resistant up to 110°C, making it safe to use in the spray booth and infra-red drying
- Static treatment applied to the film means it moulds instantly to the car for faster throughput with better precision and saving time
- Corona treatment prevents imprinting and marking on damp vehicles and eliminates humidity between the film and coating

DIMENSIONS	ART NO.	PK QTY
4m x 150m	66623341457	1
5m x 120m	66623341458	1

MASKING

PLASTIFILM STANDARD +++

- Made from transparent polyethylene, which can be easily trimmed to size and gives excellent visibility throughout the process
- Closed surface structure prevents paint leaking through and avoids the requirement for rework
- Can be compressed to minimum dimensions, making it easy to store and producing less waste overall

DIMENSIONS	ART NO.	PK QTY
4m x 150m	66623341451	1
4m x 300m	66623341454	1

NORTON PAINT SYSTEM

NORTON PAINT SYSTEM

The most effective and productive solution for preparing, mixing and spraying paints, the Norton Paint System provides a faster and cleaner solution and saves on cleaning time and solvent usage, allowing paint to be stored and reused.

The Norton Paint System also enables the operator to paint in all positions, without any risk of the paint leaking.

The easy to assemble system ensures a consistent spray pattern, convenient storage of paint as well as easy and clean disposal of the entire unit.

A complete range of products and accessories are also available.

DISPOSABLE KIT

- Two different kits are available with different mesh weights built in to the filter inside the lids: 190 μ , 125 μ and 80 μ mesh
- Refer to the paint manufacturer's recommendation for the correct filter mesh. Each kit comes complete with lids with membranes, liners, rings, plugs and a mixing bar

VOLUME (ml)	FILTER 80 μ	FILTER 125 μ	FILTER 190 μ	PK QTY
250		7660721644	7660721645	48
750	66623314383	7660721646	7660721647	48

REFILL KITS INCLUDES LIDS / CAPS

- A refill kit is available for when the paint cup needs to be refilled
- Each kit contains lids and plug

FILTER (μ)	ART NO.	PK QTY
125	7660721875	24
190	77696073055	24

PERSONAL PROTECTION EQUIPMENT

MASKS

The Norton range of personal protection equipment is designed to provide the highest standard of protection in the workplace. All products adhere to the most stringent European directives and regulations. Our approach to safety in the workplace is taken very seriously and products are designed to the most rigorous standards to guarantee optimum personal safety and user comfort.

DUAL CARTRIDGE RESPIRATOR MASK EN405:2001+A1:2009 CE1094

- Soft, non-allergenic material is smooth and comfortable to wear on the face
- Patented hygienic form guard maintains the shape of the mask and its cleanliness after use
- Low profile cartridge provides unimpeded vision to the user
- Cradle suspension and adjustable head straps give the user a secure and comfortable fit
- Filter replacement pads are low maintenance and can be frequently replaced to prevent replacing the mask itself

MODEL	PRODUCT DESCRIPTION	PROTECTION LEVEL	ART NO.	PK QTY
2016	Dual cartridge respirator mask	FFA A2P2	66254482016	1
2017	Particulate filter pad replacement	P2	66254482017	12

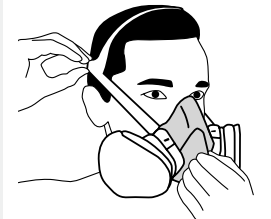

Hygienic form guard to maintain shape and cleanliness

Low profile cartridge for improved vision

PERSONAL PROTECTION EQUIPMENT

USAGE ADVICE

Place the respirator over the mouth and nose, then pull the head harness over the crown of the head.

Attach the bottom straps behind the neck.

Tighten top strap by pulling on ends to obtain a secure and comfortable fit. Tighten bottom straps by pulling on ends or loosen by pushing out on buckle tab.

Check respirators each time you enter a contaminated area.

NORTON UPHOLDS THE FOLLOWING EUROPEAN DIRECTIVES FOR RESPIRATORY MASKS:

- Directive 89/656/CEE of 30 November 1989: on the use of PPE by workers. It stipulates the employers' obligations
- The PPE required for work must be provided free of charge
- PPE must comply with the legal provisions in force
- The employer must have, at its disposal, the information needed for proper use of the product. The rules and conditions of use must be defined
- The user must be informed, and training provided
- Directive 89/686/CEE of 21 December 1989: on the design, market entry, free circulation of PPE within the European Union. This Directive has evolved and been modified by 95/58/CEE
- The essential requirements to be met by PPE in order to be put on the European market
- The specific texts provide a classification with regard to hazards

PERSONAL PROTECTION EQUIPMENT

SAFETY GLASSES

Providing eye protection for metal, welding, cutting, grinding and sanding applications.

SAFETY GLASSES STANDARD EN 166

- Ideal for general purpose applications protects from dust and paint particles
- Markings on the frame and lens indicate conformity to quality and safety standards

STANDARDS AND LEGISLATION FOR GLASSES

Directive 89/686/EEC (Design) describes the essential requirements to be met in order to sell protective glasses on the European market.

PPE from the European Union must bear a marking testifying to its compliance with Directive 89/686/EEC. All our glasses complies with Directive 89/686/EEC and EN 166 which describes "Technical Performance standards". Our premium glasses complies with the EN 175 which describes "equipment for eye and face protection during welding and allied process".

The "CE" marking appears on the smallest packaging unit.

UNDERSTANDING LENS MARKING

2	1.2	U	1	F	N
FILTER TYPE	SHADE NUMBER	MANUFACTURER	OPTICAL CLASS	MECHANICAL RESISTANCE	ADDITIONAL REQUIREMENTS
2 - Code No: indicates the type of filter. 2 & 3 = UV C - Enhanced colour recognition for lenses category 2 or 4	1.2 - Indicates the shade of the lens (between 1.2 & 8 for spectacles & goggles)	U - Manufacturers identification	1 - Optical class 1 = permanent wear 3 = occasional wear	F - Symbol for mechanical strength (F for low impact) T - Symbol for resistance to high speed particles at extremes of temperature (-5°C & +55°C) follows impact grade	K - K Symbol for resistance to surface damage by fine particles N - Symbol for resistance to fogging of lenses

UNDERSTANDING FRAME MARKING

U	EN 166	F
MANUFACTURER	OPTICAL CLASS	MECHANICAL RESISTANCE
U - Identification of the manufacturer	EN 166 - Optical class (1 = permanent wear, 3 = occasional wear)	F - Symbol for mechanical strength (F for high speed particles, low energy) T - Symbol for resistance to high speed particles at extremes of temperature (-5°C & +55°C) follows impact grade

PERSONAL PROTECTION EQUIPMENT

GLOVES

Nitrile & latex gloves are designed for handling chemical and non-chemical compounds in the automotive market.

NON-STERILE NITRILE GLOVES

- Disposable gloves are designed for handling chemical compounds
- The gloves are powder-free and resistant to disinfectants
- Made from 100% synthetic nitrile rubber and latex-free to prevent skin irritation
- One size fits all

MODEL	PRODUCT DESCRIPTION	MEDIUM	LARGE	EXTRA LARGE	PK QTY
2022	Nitrile gloves for chemical compounds	66623398849	66254482022	66623398850	100

NON-STERILE LATEX GLOVES

- Disposable gloves for handling non-chemical compounds, powder-free and resistant to disinfectants. Minimum protection level 5µg/g
- Made from natural rubber latex to prevent skin irritation
- One size fits all

MODEL	PRODUCT DESCRIPTION	MEDIUM	LARGE	EXTRA LARGE	PK QTY
2023	Latex gloves for non-chemical compounds	66623398847	66254482023	66623398848	100

CERTIFICATIONS:

- Certification ISO 9001:2000 + ISO 13485:2003
- Conformity to technical standards EN 455-1 (pinholes detection) + EN 455-2 (physical properties) + EN 455-3 (biological evaluation) + Pr EN 455-4 (shelf life determination)
- Mark according to European Directive 93/42/EEC

OVERALLS

Protect clothes from paint, dust and damage with Norton overalls. Overalls are washable and reusable and available in medium, large and extra large sizes.

PAINTING OVERALL

- The light polyester fabric makes the painting overall breathable, anti-static and washable and reusable.
- Available in sizes medium, large and extra large.

MODEL	SIZE	ART NO.	PK QTY
8976	Medium	66254428976	10
8977	Large	66254428977	10
8978	Extra-large	66254428978	10

BODY SHOP OVERALL

- Made from polycotton, the bodyshop overall is breathable, washable and reusable
- Can be worn for all applications, protecting clothes from marks, tears, spills and splashes
- Available in sizes medium, large and extra large

MODEL	SIZE	ART NO.	BOX QTY
8314	Medium	7660718314	5
